Description of first aid measures

General information

In case of accident or illness, seek medical attention immediately. Show this safety data sheet to the doctor in attendance.

After inhalation

If breathing is difficult, remove subject to fresh air and keep at rest in a position comfortable for breathing. If subject is experiencing respiratory difficulties, seek medical attention immediately.

After contact with skin

After contact with skin, wash immediately with warm water and soap. In case of skin irritation, consult a physician.

After contact with eyes

In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart. Subsequently consult an ophthalmologist.

After ingestion

Rinse mouth thoroughly with water. In all cases of doubt, or when symptoms persist, seek medical attention.

Most important symptoms and effects, both acute and delayed

Following inhalation: Asthmatic complaints (prolonged action.)

Indication of any immediate medical attention and special treatment needed
